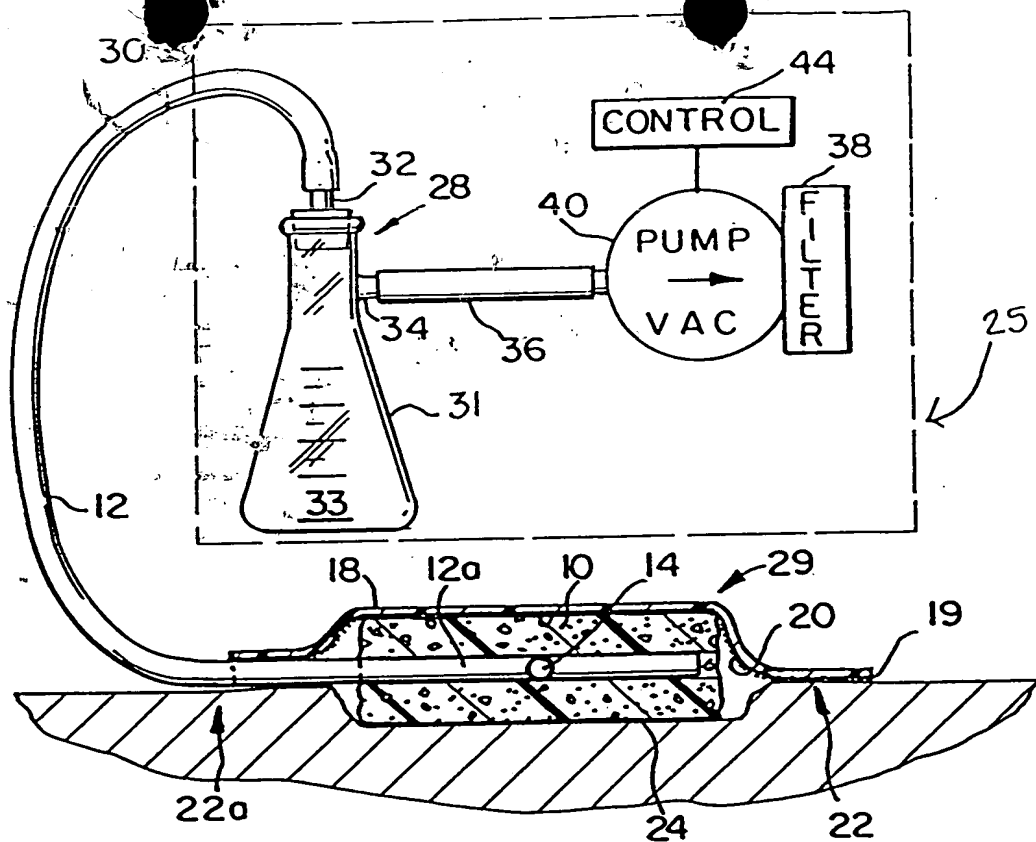

FIG. 1

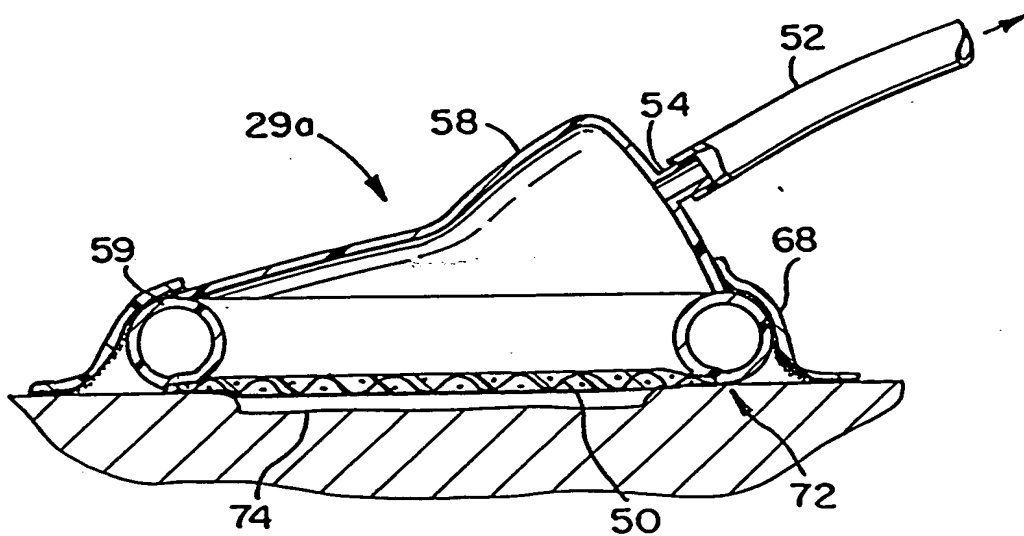

FIG. 2

A cross-sectional diagram of a device assembly. A curved member 112 is shown entering from the top right, passing through a hole 104 in a thin layer 118. Below layer 118 are several other layers: 117, 116, 109, 114, and 102. Layer 100 is at the bottom left. On the right side, there is a textured layer 119. An arrow points to the right above member 112, indicating its direction of travel.
